Long Hair and Portrait, Two of my artworks I am contributing to the WOMAN, LIFE, FREEDOM Exhibition. Face and body part. Portrait: Always the feelings of the inner situation is exposed in the outer face. Long Hair: This is always growing; we can prune it if we want.

The state and family must ensure that a woman's physical and mental development can be developed as a human being. Attention should be paid to the structure of the family, the society, and the state.

As an artist, I am supporting and participating in the WOMAN, LIFE, FREEDOM Exhibition with the artworks created from my daily living life.
